

ENERGYPOD

EP 17-1M-86-I02-CB

- Market: Offshore
- 100% Renewable Energy
- Single wind turbine (3kW PMG)
- Yield (calibrated in the Southern North Sea area between 4 - 20m/s windspeed average):
 - » 55 - 3200 W (continuous load minimum)
 - » 1 - 28 MWh (annual power delivery)
 - » 1 - 40 kW (peak load, for 1 hour per 24 hour recharge cycle)

- Battery pack:
 - » 2 x 24 2V 900Ah, PowerSafe SBS EON
 - » Autonomous 12 days (no wind or system failures)
- Satellite controlled Energy Management System
- Output: any configuration
- Footprint: 10.5m²
- 1-2 years maintenance interval
- 2 year guarantee
- Life span: 10+ years
- Turnkey and full service option available
